

Basic Forensics

FGST | Free Google Slides Templates

Google

- Answers can be found through using google
- ex: CVE vulnerabilities

Basic information about the system

- Examples: computer name, certain groups, certain users
- Can easily be searched through the image or the system information

Decryption

- asks you to decrypt a certain image or file
- example: steganography of a picture

File searching and file permissions

- asks about a certain file that is on the computer
- asks about who has certain rights to a certain folder
- ex: who has access to [insert folder or file]?

Ports, PIDs, IPs, and etc.

- harder level forensics questions
- examples include
  - what port does [insert program] run on
  - what ip is [insert program] trying to connect to
  - what is the PID of a backdoor
- we will go over this in the next unit
